

Baker Point Park Jacksonville, FL

December 2021

OPB32 - #3602

Baker Point Park had this beautiful 32' Octagon Post and Beam shelter installed over a raised stage area. The shelter features an impressive 11' eave height, Ash Grey metal roof and Traffic White base shoes and brackets. Topped with a large octagon shaped cupola with removable decorative panels, the shelter will surely be a special place to gather for this Jacksonville, FL park.

Building Features:

- Ash Grey multi-rib metal roof*
- 74" octagon shaped prefabricated cupola*
- 4:12 roof pitch
- Traffic White powder coated brackets & base shoes
- Install date: Spring 2021
- * Optional upgrades included in design
