

George Washington State Park

Chepachet, RI

Winter 2021/2022

Cabin Northland Custom – CFP#3680

In early September 2019, Rhode Island Department of Environmental Management required additional rustic cabins for two campgrounds. After multiple design review boards and an extended bid cycle, Meghan O'Brien with O'Brien & Sons won the twelve cabin order early in 2021. Following some last minute design changes to better serve ADA requests, the cabins were delivered December 2021 for installation during the off season.

Building Features:

- 4:12 pitch roof
- Nominal 2x common roof trusses
