

# Lake Corriher Landis, NC

January 2022

Bridge 645 - #3227

The Lake Corriher project located in Landis, NC features a pedestrian bridge spanning 45'. The impressive 6' wide bridge has a custom, eye-catching handrail. The pre-engineered bridge is constructed from a glulam Southern Yellow Pine frame and Southern Yellow Pine decking. A clear sealer was applied to enhance the natural beauty of the wood. A Wood Hip 20' x 20' shelter and a Mini 8' x 10'6" shelter with message boards are also part of this project.

#### Building Features:
