

TUUCI
PROUD PARTNER
OF US SAILING

TAILOR-MADE SHADE

We are honored to have received countless Design Excellence Awards, but we are proudest to see how our products complement the creativity of others. With boundless fabric, trim, fringe, finish choices and combinations, our parasol and shade systems provide an opportunity to elevate any space.

We dream. We imagine. You create.

/ OCEAN MASTER MAX / CENTER POSTS

Every silhouette in the Ocean Master MAX Collection stuns, and the engineering allows each parasol to cast its shade even in the toughest of conditions.

The V MAX Strut is exclusive to the collection and designed to resist wind forces with its radial strength precisely where needed most. The telescoping mast with stainless steel guide and proprietary gear system allows the canopy to sweep above furniture and makes opening and closing a snap.

Product Shown:
OCEAN MASTER MAX CLASSIC
In Polished Titanium

/ NAUTICAL TEAK

Inspired by our marine roots, our premium teak parasol blends the authentic beauty of teak hardwood, classic elements of nautical design and durability of corrosion-proof materials. Choose from two different lift systems to complete your vision.

A : Alumina-CORE mast

B : Natural teak ribs and struts

C : 316 stainless steel fasteners, brackets and tubing

/ OCEAN MASTER

The Ocean Master premium parasol is an architectural triumph in shade engineering and design. It is constructed to withstand the harshest environments for years to come. TUUCO's patented independent bracket hub system features stainless steel, resin and anodized aluminum components that are modular, corrosion-proof and self-lubricating.

A: Marine grade armor wall construction

B: Marine pulley lift system

C: Ballistic reinforced pockets

D: Solid stainless steel finial design

/ VINEYARD

The *Vineyard* patio is reminiscent of classic European designs from a bygone era. The classic center post is engineered with Dura-TEAK, a polymer that looks like wood, but is impervious to saltwater and UV degradation. The Vineyard cantilever offers expansive shade with a durable Alumina-TEAK mast. All Vineyard Collection products include our Copperstone resin modular hub, stainless steel fasteners, and precision-tailored canopies.

PLANTATION ALUMA-TEAK

Our state-of-the-art Aluma-TEAK coating conveys the elegance of hardwood with unparalleled resilience to the elements. TUUCI pioneered the art of creating a product with the indistinguishable appearance of hardwood that is impervious to seaside corrosion and UV degradation. We continue to perfect and expand our collection of woodgrain offerings to enhance every setting.

RESPONSIBILITY

OUR COMMITMENT TO SUSTAINABILITY AND OUR COMMUNITY

Our mission in shade design connects our passion for sustainable and enjoyable lifestyles the world over. For over two decades, we've been guided by our love of the natural environment and our community in everything we do. As we enter our third decade, we continue to commit to the following principles and continuously challenge ourselves to do better:

PRODUCT DURABILITY

All of our products are engineered for a lifetime of serviceability with replaceable parts and marine grade components, reducing global waste. Through our designs, we ensure less disposal of our products which saves landfill space and conserves energy.

RESPONSIBLE OPERATIONS

The high standards we set for our products' functionality and durability is reflected by how we operate our facilities. TUUCI continues to recognize innovative opportunities to minimize material waste, while maintaining our premium quality. From our fabric recycling program to the sourcing processes in our facilities, we aim to reduce our ecological footprint as we reduce our waste.

COMMUNITY

We believe good deeds begin at home. Through philanthropic and volunteer efforts, TUUCI contributes to multiple organizations that provide benefit to the environment, education and shelter to disadvantaged families in South Florida. We seek to be active and generous contributors to the community we love.

TUUCI
Cares
